Focus Group #1

Fiscal Health Analysis

ECONOMIC DEVELOPMENT ELEMENT

Citywide

AHMUD Specific Plan

Market Opportunity Assessment | Key Takeaways

Socioeconomic Conditions

Montclair is a **largely Latino** and solidly **middle-class community** with a stable population base

The vast majority of residents **work outside of the City**

Montclair has lost 1,700 net jobs since 2006, mostly in retail

Health care is the fastest growing sector, with nearly **800 new jobs** since 2006

The introduction of Gold Line light rail service will **increase the City's growth rate** by making it a more attractive place to live

Market Opportunity Assessment | Key Takeaways

Residential

There is **high demand for housing** in the Montclair area

The Gold Line extension will attract housing **to the transit hub**

Virtually all new housing will be accommodated in **multi-family units**

The Paseos at Montclair North (2013)

Demand through 2040

5,300 – 7,500 units

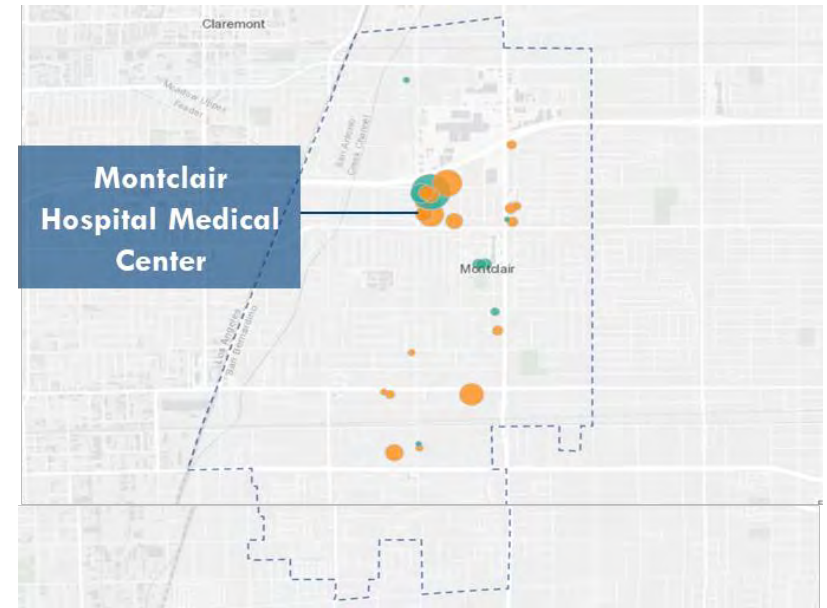

Market Opportunity Assessment | Key Takeaways

Office

The City has a **very small share** of the region's office space

70 percent of the City's office and is **medical office** and most is over 30 years old

The Gold Line will **catalyze office demand from professional workers** to work in or near Montclair

Demand through 2040
360k – 600k s.f.

Market Opportunity Assessment | Key Takeaways

Retail

The City has **significantly more retail** than its peer cities (4.6M sf)

There is **only a modest demand** for new retail space; most will be driven by new housing and jobs

Redeveloping **underperforming retail** should be a priority

Demand through 2040

<0 – 650k s.f.

Market Opportunity Assessment | Key Takeaways

Hospitality

Montclair's only hospitality assets are **aging motels**

Hotel market **performance has been strong**, driven by the Ontario Airport, Fairplex, and educational institutions

New hotels will locate in **highly amenitized** areas of the City

Demand through 2040

220 – 300 rooms

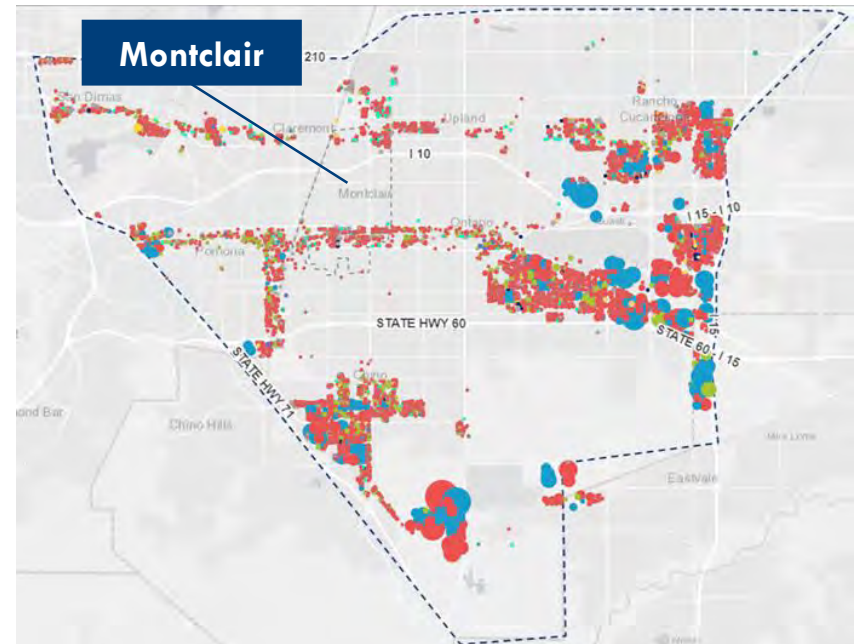

Market Opportunity Assessment | Key Takeaways

Industrial/Flex

Demand for industrial space in the region is at an **all-time high**

Montclair's industrial inventory is **older and smaller format** than in neighboring cities

2/3rd of industrial land is dedicated to **logistics**, notably for **warehousing and distribution**

Demand through 2040
750k – 1.9M s.f.

HR&A PROCESS

ANALYSIS TAKEAWAYS

Market Opportunities Assessment

Focus Group #1

Fiscal Health Analysis

ECONOMIC DEVELOPMENT ELEMENT

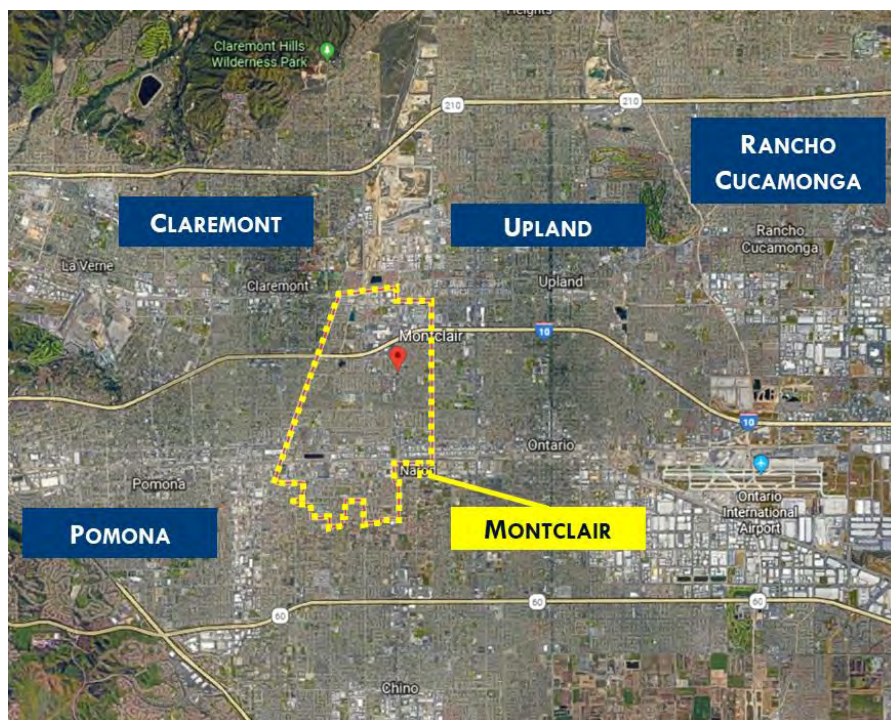

Citywide

AHMUD Specific Plan

Fiscal Health Assessment | Peer Cities

HR&A evaluated a set of **neighboring peer cities** to benchmark Montclair's fiscal performance.

Peer Cities for Fiscal Analysis

Equivalent Dwelling Units by City

Fiscal Health Assessment | Gross Municipal Revenues

Although Montclair receives an **average amount of revenue** compared to peer cities on a per EDU basis, but it is more heavily **weighted towards General Fund** revenues as opposed to funds dedicated to specific services.

General Fund and Non-General Fund Revenues per EDU

Fiscal Health Assessment | General Fund Tax Revenues

Montclair is much more **reliant on sales and use taxes** than its peer cities and would benefit from a **diversification** of land uses to increase other sources such as TOT.

Fiscal Health Assessment | General Fund Expenditures

The City also has the highest share of public safety employees because it is the **only city** to provide both police and fire services. The City's **retail concentration requires additional public service presence**, but should be reconsidered if the mall is reconfigured.

Fiscal Health Analysis

Focus Group #1

ECONOMIC DEVELOPMENT ELEMENT

Citywide

AHMUD Specific Plan

Our Prosperous Community | Focus Group #1

Key Takeaways

- Assets:** The City's **central location, educational institutions,** and strong and stable **local government** are some of its best assets
- Challenges:** **Housing affordability** and **public safety** are general concerns, and noted that the City **lacks urban amenities,** including a downtown, high-quality retail, and open spaces.
- Jobs:** Participants would like to see the City **attract entrepreneurial businesses,** especially in advanced manufacturing, healthcare, and tech.
- AHMUD:** The AHMUD should have a **diversity of uses,** including office, housing, and light-manufacturing, with improved mobility options and a **unique character**
